Is the Charge Made Against Harlem Officers.

Chicago, July 19-The members of the village board of Harlem, as well as Harlem's chief of police, are under C. McCarroll, president of the South Harlem Protective association, who inspired the arrests, declares he has proof that each official has received money from Harlem and Hawthorne race track gamblers.

While all of the thirteen officials were formally arrested, none was taken into custody. They were allowed their liberty on their own recognizance and will appear Monday for a hearing. Warrants were also taken out for the presidents and secretaries of the Harlem and Hawthorne tracks.

DAVID AND GOLIATH.

A Little Shot Put Old King Coffee Out of Business.

When medicine fails, they sometimes send sick people away to another climate for their health. Sometimes the and then get well.

A lady in San Diego tells of a friend who left her home each December, for the past two winters, to go to Cal., for her health. She says: "Almost all of her time was spent in visiting the doctor and sitting in a big chair and watching the clock to note the time for her next dose of medicine. Nervousness was her principal trouble, and with others of kindred nature, made life for her a burden.

On the ocasion of her last visit berged her to give up the use of coffee and use Postum Coffee. She replied that she could not stop coffee. I said no more at the time, but the next morn. ing at breakfast, I passed her a fragrant, steaming cup of Postum, making it as it should be made. After that I had no more trouble, and my friend drank no more coffee. But the most surprising part of the experience was the change that soon came over her.

We began to note it within less than week. In less than a month her nervousness had left her, and in three months she was a new woman in face, figure and health. I had not dared to pe for so much benefit, although I had been greatly benefited by Postum, out coffee to her system was simply onyms. Another day we may return us, and I believe this is the with many others. She returned her home in December, and was rried within less than two months er. She never fails to give credit Postum for her health or thanks me for teaching her to make it propely, and well she may, for Postum bas for her what travel, doctors and dicine falled to do."
